Teal and Amber are accent colours only — reserved for the icon mark's sound-bars.
Do not introduce additional accent colours without updating this document.

03 Clear Space & Usage Rules

Keep the mark legible and consistent across every touchpoint

Clear space: keep an empty margin around the mark at least equal to the height of the icon's centre bar on every side.

Minimum size

Icon mark only: 16 px (favicon) / 8 mm print

Full lockup with tagline: 120 px wide / 25 mm print

Below these sizes, use the icon mark alone.

Do

- Use the supplied logo files without recolouring.
- Use the dark-background (white) version on photos or navy fields.
- Scale the mark proportionally.
- Use the icon mark alone for favicons, app icons and social avatars.

Don't

- Do not stretch, skew or rotate the mark.
- Do not change the Navy / Teal / Amber colours.
- Do not place the full-colour mark on busy backgrounds.
- Do not recreate the wordmark in another typeface.
